

CLARK COUNTY DEPARTMENT OF DEVELOPMENT SERVICES APPLICATION FOR PHASED DESIGN AND CONSTRUCTION

The Building Official may authorize projects to be constructed using a *phased design and construction method*. Consideration will be given to size, complexity, construction schedule and other related factors to determine if this approach is acceptable. Authorization must be obtained prior to submitting any initial building permit applications/ documents. A copy of this Application with appropriate signatures must be attached to the first permit application.

Please complete the following information and submit this *Application* to an Assistant Manager or Principal Engineer, Building Plans Examination Division. Extremely large and/or complex projects may require a preliminary meeting prior to completion of this *Application*.
